UPDATE: We have now changed our name from Messiah Ministries to Heritage Life Training. We are still in the process of working through certain changes to the board and to put an application in for a Section 18A. We continue to stand for our goal to assist teens leaving school or young adults who are unable to further their training or lack ability to get into the work place. It will involve things like computer training, public speaking, personal presentation and leadership, research and exposure to desired careers and discipleship training. We request specific prayer for this to understand the heart and will of our Father as we are facing great challenges with our youth in South Africa.
