

Update on projects Feb 2011

Injongo Educare Centre (Imfuleni)

Mavis and her staff are caring for 60 children. She is now sewing lace table cloths to make extra income using the sewing machine that was donated to her. On Wednesday we erected a veg tunnel for the day care. The produce from the veg tunnel will help Mavis feed the children at the day care.

The Lord's House Veggies (Hout Bay)

The property at the Lord's House is being sold. Ps Nedu and the team are busy looking for an alternate venue to continue the veg tunnel project. For now Sibus tunnel is still producing green peppers, chilli and spinach. Zizi and Fungai are helping to keep the general up keep of the Olive trees and other tunnels.

City Mission Educational Services (Athlone)

We started preparing the grounds, bought 4 types of seedlings so we looking forward in working the farming project with assistance from the community.

I took off the tunnels due to the pipes not being secure anymore and replacing it with a wooden frame which will be covered with netting. Skills training will continue on Wednesdays.

Alexandria (Port Elizabeth)

Sewing: Order for Pretoria completed and delivered mid Jan. We have put in a quote with our original first customer and awaiting response. We submitted a further quote to a potential new customer yesterday. Pastor Mali: Tent Ministries: The tent needed substantial repairs and will hopefully be returned today in time for the Outreach Week with Lester Kelly from Australia.

Green Pastures Sewing Centre (Hanover Park)

In February the ladies made 25 chair bags, 10 peg bags and 25 aprons. With the donation of fabric received the ladies are preparing to sew TV blankets.

Philisia Abafazi (Lavendar Hill)

The veg tunnels were prepared and seedlings were planted at a safer location in the school yard last Saturday. Unfortunately the tunnels were once again vandalized during the week. The veg tunnels will be repaired and moved to a new location next week. A new and bigger venue is now rented for the ladies programme. They continue with bean work and clock making skills.

City missions new structure for veg project. This is Mavis with new veg tunnel.
